

Choosing Your Activities

Impact Assessment Template

Use this template to support your WorkWell group with choosing which organisational, environmental and individual changes will have the greatest impact on employee wellbeing within the resources you have available to your workplace.

As a group, plot each suggested activity in the grid below based on its potential impact and how easy or difficult you think would be to implement within your organisation. Options that fall into the upper left hand (green) squares will yield the best return on investment, are more likely to gain employee buy in and should be considered first.

	Easy to Implement	Medium to Implement	Hard to Implement
High Impact			
Medium Impact			
Low Impact
